

# FIRECONNECT<sup>™</sup> for Notebooks

Hot-wire your notebook with maximum FireWire<sup>®</sup> expandability

## Product Benefits

- Add three FireWire ports to your notebook
- Connect digital camcorders, hard drives, CD-RWs, and other FireWire devices
- Hot-pluggable with full Plug-and-Play support
- Capture and edit your digital video
- Produce VideoCDs, DVD-on-CDs or DVDs
- Create interactive DVD menus
- Archive and share video

## FireWire to Go

Now you can take high-performance FireWire connectivity wherever you go. Capture digital video and turn it into professional-quality movies. Then quickly create and share your movies on CDs or DVDs. All this is yours with the FireConnect for Notebooks kit from Adaptec.

## Take Advantage of Today's Hottest Peripherals

FireWire is as hot as its name suggests, supporting data speeds up to 400 megabits per second (Mbps). Use the three ports on the FireConnect CardBus adapter to attach a digital camcorder as well as high-speed storage devices, scanners, CD-RW drives, and much more—and it's hot-pluggable.

## Create Your Own Movies

Get in on the fun of digital video (DV) movie making. First, attach a FireWire-compatible DV camcorder to your new FireConnect CardBus adapter. Then use the video editing software to capture footage from the camcorder; assemble a movie from your favorite scenes; and add titles, graphics, music, and special effects. It's fun and easy!

## Watch Your DVD Movies on PC or TV

To share your latest adventure quickly and easily, fire up Sonic's MyDVD software. In a few short minutes, you can arrange your movies into easy-to-navigate menus—even give movies new names and include thumbnail buttons. Then burn the finished collection onto CD-R or DVD-R\* to share, store, and keep your memories alive for a lifetime.

## Trust the Adaptec Name

When you choose an Adaptec product, you benefit from our 20-plus years of experience in making advanced technologies easy to use. We back up the FireConnect CardBus adapter with a five-year hardware warranty plus our superior telephone and online support.

\* Supported formats: Video CD, DVD-on-CD and DVD.
