

Drive all your USB peripherals to peak performance – today and tomorrow.

Product Benefits

- High-speed USB 2.0 certified with USB 1.1 compatibility
- Four or six fully-powered ports
- Includes USB 2.0 drivers for Microsoft® Windows® 98SE, Me, 2000, and XP
- Works with both Macs and PCs
- Includes Adaptec USBControl™ utility for Windows
- Fully certified by USB Implementers Forum

USB 2.0 has boosted peripheral performance up to 40 times that of USB 1.1. USB2Connect maintains backward compatibility so you can connect both USB 2.0 and USB 1.1 devices allowing them to run at their rated speeds.* High-performance USB 2.0 Windows drivers complete this speedy solution. Accelerate your peripheral support with USB2connect!

Go for maximum speed with USB 2.0

USB 2.0 is the fastest USB standard yet released, supporting data speeds up to 480 Megabits per second (Mbps). That's 40-times faster than USB 1.1! It makes USB 2.0 an ideal technology for external

storage devices, scanners, CD-RWs and much more. To make sure your USB 2.0 peripherals really fly, we've even included high performance Adaptec USB 2.0 drivers for Windows 98 SE, Windows Me and Windows 2000.

Includes Adaptec's USBControl utility

Take control of your USB configuration with Adaptec's USBControl utility. Its friendly and intuitive interface shows you where all your devices are connected and how they're performing, simplifies trouble-shooting, and more.

Enjoy USB's plug-and-play advantage

The USB standard is simple and easy to use. All you have to do is install the USB2connect card, install the Adaptec USB 2.0 drivers**, and your system is ready to take advantage of USB devices. The USB2connect automatically configures itself for USB 1.1 or USB 2.0 operation. Nothing could be easier to set up.

Work with current and future USB devices

USB2connect makes it easy to add the peripherals you need. From thousands of currently available USB 1.1 devices to new high-performance USB 2.0 peripherals, USB2connect is designed for maximum compatibility. And for maximum flexibility and choice, Adaptec offers USB2connect in 4-port and 6-port versions.

Trust the Adaptec name

When you're getting started with a new high-speed technology, you want to buy products from vendors you can trust. For more than 20 years, Adaptec has made advanced technologies easy to use. Our cards are the standard that peripheral manufacturers themselves use to test the compatibility of new products. And we backup our products with a five-year hardware warranty plus our superior telephone and online support.

* USB 1.1 devices cannot operate at USB 2.0 speeds even when connected to a USB 2.0 hub or host adapter. USB 2.0 devices connected through a USB 1.1 hub are limited to USB 1.1 speeds.

** Please check the Adaptec website (www.adaptec.com/usb) for Macintosh driver support. At this time Apple does not support USB 2.0 drivers. Without USB 2.0 drivers, the USB2connect will operate at USB 1.1 speeds.

#1 Choice for PC Connectivity based on PC Data figures for combined Retail and Distributor unit sales for 1998-2000.

P/N 986118-021 9/02 Printed in U.S.A.

System Requirements:

PC System Requirements

- IBM-compatible PC with 266 MHz or faster processor
- Microsoft® Windows® 98 SE, Windows 2000, Windows Me, or Windows XP
- Available PCI slot
- CD-ROM drive

Macintosh System Requirements**

- Mac OS® 9.0.4 or later
- Power Macintosh Beige G3 rev.B or later
- Available PCI slot
- CD-ROM drive

Two Kits to Choose from:

USB2connect 4000 Kit Contains:

- Adaptec USB2connect 4000 card (AUA-4000; 4 external ports, OHCI and EHCI compliant)
- Hardware installation guide
- Adaptec USBControl Utility
- Installation CD with USB drivers for:
 - Windows 98 SE
 - Windows Me
 - Windows 2000
 - Windows XP
- Warranty information

USB2connect 5100 Kit Contains:

- Adaptec USB2connect 5100 card (AUA-5100; 5 external ports and 1 internal port***, OHCI and EHCI compliant)
- Hardware installation guide
- Adaptec USBControl Utility
- Installation CD with USB drivers for:
 - Windows 98 SE
 - Windows Me
 - Windows 2000
 - Windows XP
- Warranty information

*** Only five of the six ports can be used simultaneously.

AUA-4000: 2000300
AUA-5100: 1923400
